

For decades the AREA Bollenberger Group has been working in Austria and internationally with its KRESTON partners. It is our pleasure to serve an extensive number of small, medium-sized and large companies at our six locations.

AREA Bollenberger is a member of KRESTON International, a global network of tax advisors and consulting groups, as well as a member of ECA, a nationally active group of over 50 independent chartered public accountants and tax consultants with about 500 employees.

Our own internal quality assurance system (QMS) provides consistent service quality our clients can rely on.

Drawing both from our rich experience and the network between our consulting group and its external partners, we are able to guarantee effective solutions by specialists – all for the good of our clients.

As a local partner of Systemhaus BMD and with our specialist IT department we guarantee that technology at AREA Bollenberger will always be up to date – especially in our fast-changing times.
